December 2017 Event Review:

- About 1 hour spent diagnosing timing issues in second heat after 1st heat had no issues
 - After a long discussion with much haranguing and general flagellation
 - We decided to sacrifice a fatted calf to the gods before the start of the January event.
 - We will also set up separate tripod/pole/antenna for the timing display and the T1.
- Much discussion of what would be required for us to get back to the 4 heat morning/afternoon structure that we used to use until about 2009.
 - No timing issues
 - Efficiency will definitely need to increase
