

Houston SCCA Solo Committee meeting minutes 30Nov2016

Tech Report:

- One car failed and sent home, two helmets failed.

Fastrack:

- STP rules posted for pony cars (American muscle).
- Some cars that weren't allowed in 2016 will be added for 2017.
- Will keep SSR class for 2017.
- Fiat 124 in CS
- MR2 in DP

Treasurer:

- 131 drivers on Saturday and 131 for Sunday (including DB).

Last event (RPR double header in November):

- The event site added concrete parking curbs right next to the grass on the side with the restrooms. What this means is that our 25 foot safety margin (non kart) should be measured from the new curbs instead of the fence.
- Setup and drivers meeting and start of event happened at roughly the usual times. Drivers meeting took a little too long.
- We set up the timing wires just in case, but the directional antennas worked well.
- On Sunday, we only had the committee working on packing up over at the trailer. Raymond is going to come up with a way to track the DB work assignments. The committee suggestion is that DB workers check in with worker chief just like a regular heat and get assigned a task. No shows to work cannot DB at the next event.
- A concession worker drove through an area next to where the course was set up to get to his concession stand on Saturday.
- Courses were nice. Some liked Saturday, some liked Sunday.

Next event (December 4th at RPR)

- Rallycross Saturday got canceled which means Wayne will probably be around.
- 7:00 setup at RPR
- order porta potties

Other business

- The vote was examined for the 2017 Solo Committee. The committee decided that we would have two Rookie Chiefs (Johnathon and Landon).
- find out Wayne and truck, no setup on Saturday. Blemished cones from SCCA?
- We have had the trailer for longer than 18 years. It is still in pretty bad shape. We should seriously consider replacing the trailer and/or significant repair.
- Our cones are in pretty sad shape. We could give the old cones to die a violent death at RallyCross.
- Half of big storage boxes in the trailer could stand to be replaced.
- We should check to see if helmets need to be replaced.
