

Fastrack

- Move Acura Integra non R from STS to STX.
- Move Fiat Abarth from STS to STX.
- M3 (2007-13) in ESP.
- Roger Johnson and Alex Jones are course designers for 2015 Nationals.
- SEB proposal out for comments from members: Change all weights in Street Modified and Prepared to be **with driver** and increase all weights by 200 pounds.
- Cannot use drones at events.
- CP wheel width changes

Treasurers

- Proceeds \$3162, paid out \$1900, same turnout as previous event.
- Found another site? Not yet.

March Event Review

- The event was really, really wet. Daniel course design. We had a lot of drivers off course but not in any area close to a pole or barrier. In particular, drivers were spinning out at the dip just before the street light that is over the X.
- It would be nice to repeat that course in the dry. Members thought the course was interesting because of the change in start and finish locations.
- Backups in registration caused backups everywhere else. People showed up late because of several road bridges shut down so they arrived late.
- Next time we have that much rain, tech will put up an easy up.
- We changed to 4 runs because of weather and we finished early. We would have done 5 runs if it was dry.
- They charged us for an extra hour. Having the crossing guard with the radio to manage the sending of the cars worked very well.
- Error from AxWare was solved by using most recent version of software and we uploaded the data to the web site.

Next event 3/29

- Andrew is having a child so he may not be attending events as much in the future.
- Seth Eaton will be there to act as rookie chief in Barnes place.
- 7:00 setup time.

Practice event 4/4

- Practice next weekend. 40 drivers registered. Barnes will be there. Wayne will bring truck there and back.
- Course approved. Safety Steward is Robert. Offer free event for SSS to appear. We need two.
- Daniel will be leaving after it gets started, so Zack will pay the officers (blank check Ricardo at next event).
- Be sure that we have a paddock/grid worker position, Daniel will set up the worker sheet.
- The practice will last for 5 hours.

Course review Sober (May)

Site is RPR. Paddock on North area. Grid to the east side. No changes recommended.

Misc.

National Tour (Apr 11-12) National Rookie program that Daniel announced to provide Houston members some advice. Volunteers to coach: RoHo (Dean and Chris), Roger (Landon)
