

Houston SCCA Board election results for 2022

Election results

We had 98 ballots submitted via SurveyMonkey with 2 emails sent two weeks apart to all 815 Houston SCCA members that have an email address (808) from the National database. The result was a response rate of 12%. Beyond the votes for the board members, we have a set of questions and a set of write-in questions to get feedback from the members.

All the incumbents won the vote by overwhelming numbers. I'm not going to waste your time summarizing the votes on those positions. Our treasurer position had no candidate, despite us asking around and delaying the transmission of the ballot emails a bit while we sought a candidate. In the end, we left it up to members to write in candidates. The result is that a returning board member has stepped up to be the treasurer and they received 19 votes out of 31 write-in votes. Our 2022 Treasurer is **Randall Smart**.

This is a url of the survey report (bar graphs of the responses to our questionnaire) showing the satisfaction/dissatisfaction with our events by each of the disciplines.

As far as significant result trends what I see is that the members would like more Road Racing and Membership Outings. Solo has extremely good satisfaction results with only the event site getting any dissatisfied votes. The desire for amateur track events such as a DE and for more social gatherings are reflected in the write-in comments also.
