

LEGEND

- Blue = Praise and general comments
- Green = "if it were me" suggestions
- Red = Safety Concern and must be dealt with

- I like that although it is a run Day 1 backwards design that you made the effort to make changes through out the course
- A - As with Day 1 I think this start also addresses the same start concerns in a different manner. In this case the samller radius turn(52') helps this be the case.
- B - As a decreasing set of radii, I dont think this will be as fun. I think for day 2 I would kick the 60' apex cone over a bit to open this turn up
- C - Same Comments/**Concerns** as Day 1
- D - I like that you revised this corner into 2 turns
- E - I like this approach to the slalom, although at 84', 104, and 155' - it isn't much of a slalom ;-)

DAY 2
